SUMMARY

React JS Frontend Developer specializing in building dynamic, full-stack web applications using the MERN stack. Proficient in engineering secure RESTful APIs with Node.js and Express.js and designing responsive user interfaces with React.js, JavaScript, HTML5, and CSS3. Demonstrated ability to deliver end-to-end solutions, including database management with MongoDB, as shown in the successful development of a comprehensive event management and booking platform.

EXPERIENCE

Intern

Jan 2024 - Dec 2024

Brainsquare Technologies Pvt Ltd , Ahmedabad

- Developed responsive and reusable UI components using React.js, JavaScript (ES6+), HTML5, and CSS3, implementing state management with React Hooks and client-side navigation with React Router.
- Built and integrated RESTful APIs with Node.js and Express.js to handle all CRUD operations, connecting the React frontend to backend services using Axios for seamless data flow.
- Designed and managed MongoDB database schemas with Mongoose for efficient application data storage and retrieval, ensuring data integrity across the MERN stack.
- Validated API endpoints using Postman and utilized Git/GitHub for version control, collaborating within an Agile environment to incorporate code review feedback from senior developers and deliver modules on time.

PROJECTS

EventHub – Event Management & Booking Platform

Stack: React.js, Node.js, Express.js, MongoDB Atlas, REST API, JavaScript, HTML5, CSS3, Netlify, Render

- Developed a full-stack event management and booking platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline event creation and registration.
- Engineered a secure RESTful API with Node.js and Express.js to handle all CRUD operations for events, user profiles, and booking data.
- Designed and implemented a dynamic, responsive user interface with React.js, allowing users to seamlessly browse, search, and book events.
- Utilized MongoDB Atlas for persistent, scalable data storage of user and event information, deploying the front-end on Netlify and the back-end on Render.

EDUCATION

MSCIT · Information Technology

2024 - 2026

Dr.BabaSaheb Ambedkar Open University, Ahmedabad

Completed Master of Science in Information Technology with a strong focus on software development, web technologies, database management, programming, and modern IT concepts. Developed practical skills in React.js, JavaScript, Node.js, and full-stack web development through hands-on projects.

BE · Information Technology

2021 - 2024

Dr.Subhash Technical Campus , Junagadh · Grade: 8.62

Bachelor of Engineering in Information Technology with a CGPA of 8.62, focusing on software development, web technologies, programming, databases, and software engineering. Built practical development skills through academic projects and hands-on experience

Diploma · Information Technology

2018 - 2021

Sir BhavSinhji Polytechnic Institute, Bhavnagar · Grade: 7.19

Diploma in Information Technology with hands-on knowledge of programming, web development, databases, networking, and software development. Developed a strong foundation in IT concepts and practical problem-solving skills.

SKILLS

React.js		JavaScript		Node.js	
Express.js		MongoDB		HTML5	
CSS3		REST API			

CERTIFICATIONS

Certified React Developer - TOPS Technologies

Sep 2026
